POINSETTIA (Weeks 1952)

Color spectrum red, with slight ruffling. Plant grows to height of 55 inches carrying 21 buds with seven open florets. Poinsettia received an APPROVAL AWARD from the N.A.G.C. Trial Garden Committee in 1950.

With the exception of the introducer, we have seen more of this fine new glad than any other grower, as we have watched it closely for the past five years. We rate it as one of the finest commercial reds of all time. Our color reproduction shows too much orange.
